I have retained too many experts to count in my 24 years of being a civil trial attorney. I retained Brian Daniels to assist me in a very complex insurance bad faith matter involving housing codes. The house was built before the county had adopted any housing codes.

Brian worked diligently to track down the applicable codes and then applied them to our case. Brian's hard work resulted in a very favorable settlement.

I highly recommend Brian for his professionalism and integrity.

Thank you for your attention to this matter.
